# WOMEN AND TEC

## *A Commitment to Success*

- Between 1997-2002, the number of women-owned businesses grew by 11 percent, more than one and a half times the average rate.\*
- 10.1 million firms are now owned by women.\*
- Women entrepreneurs generate nearly \$2.3 trillion in revenues to the U.S. economy.\*
- California ranks first in the number of women-owned firms in 2002, first in employment and first in sales.\*
- Women-owned TEC companies in the United States total \$8.3 billion in annual sales, with more than 53,770 employees.
- Women-owned TEC companies in California total \$3.1 billion in annual sales, with more than 16,000 employees.
- Women-owned TEC companies in San Diego have annual sales of \$334 million, with more than 2,100 employees.

Business is changing for women in America. That's why so many chief executives throughout California, women and men alike, are turning to TEC to focus on "big picture" ideas and opportunities that are crucial for the growth of any business.

Find out how peer power can help your business grow. To learn more about TEC, visit us at **www.teconline.com** or **call (800) 274-2367**.
